** Uploading a document, making changes to a document, and sending a document for signature are included in the 5 transactions with a free account. The 5 transactions are tracked within a 30 day rolling window from the time the free account is activated.

Cancel anytime. No commitments. No hassles.

You can switch back to **EchoSign Free** anytime. Your last 5 documents will remain stored in your EchoSign account.

Service Plan FAQ

How Many Documents Can I Send Each Month?

The number of documents sent by each user is limited by our Fair Use Policy. Abuse of Fair Use is defined as: usage in any given month that exceeds more than three (3) times the average level of usage of the same category of Adobe's Paid Account Users over that thirty (30) day period. As a general guideline a single user sending over 50 documents/month is considered to be a violation of the fair use policy. If you will send a significantly greater volume please contact us.

Cancel Anytime When Paying Month-to-Month

Once you purchase an account you will have full access to all the features and capabilities and you will be billed. Payments are non-refundable, but you can cancel at any time and you will not be billed again.

Do you bill based on the number of documents signed?

No! Sign all you want — it's all included. Billing is only per sender - we don't charge, track or calculate any fees based on usage, access to documents or actions performed.

Can multiple people in 1 company have multiple PRO accounts?

No. PRO accounts are designed for one-person and very small businesses. Our terms of use do not allow companies to purchase multiple PRO accounts in a single company/organization. If multiple people need to send out contracts for signature, please purchase either a team or enterprise account.
